

## Wounded Veteran Homebrewers

Castle Rock Homebrew Supply's Wounded Veteran Homebrewer's program is our brewing communities way of giving back to the those who have served this country and sacrificed so that we all may enjoy the freedoms of this country. Our store is a Disabled Veteran owned business and many of our customers are veterans. We understand that some have been affected more than our own fortunate return from combat. We are committing to helping severely disabled veteran's enjoy the hobby we cherish. Our program will consist of customer donations and store matching to provide equipment, instruction and friendship to those disabled veterans interested in brewing. If you feel you or someone you know may benefit, please complete this form and send it to Eric.
